

***Prof Richard Holdaway***  
***Director***

**“Led by Science - Enabled by Technology”**

***Targeting Growth  
and Impact  
with Industry***

**£21M turnover, 90% external (of which £10M is Overseas)**

**Primary customers: BIS, MoD, HO, DEFRA, DECC; STFC, NERC...**

+

**25 Space Agencies (inc NASA, ESA, UKSA, JAXA, ROSCOSMOS, CNSA, ISRO ...)**

**30 Institutes (inc JPL, GSFC, Sandia, NRL, USAFRL, Met Office, NPL ...)**

**60 Companies (inc Airbus, Lockheed, Thales, Telespazio, SciSys, ...)**

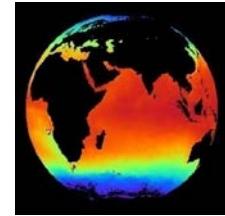

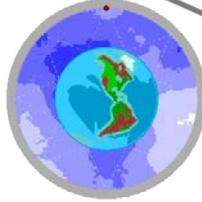

**40 Universities (inc MIT, Cal-Tech, BUAA, Oxbridge, Imperial, UCL, Surrey, ...)**

+

**HSG: Sat App's Catapult, ESA Harwell (ECSAT), ESA BIC, Industry**

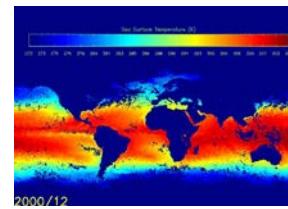

**RAL Space: a gateway to 170 organisations in 34 countries**

# What we do:

- **Research (10%)**  
**Solar Physics, Space Weather, I-R Astronomy,  
Climate, Radio/Atmospheric Propagation**

- **Design & build Space Instruments (50%)**  
**211 instruments in Space,  
+ Ground-based telescopes**

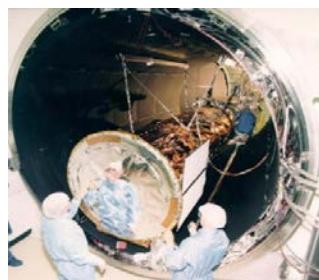

- **Develop key technologies (15%)**  
**Electronics/Detectors, Optics/Thermal, MMT, Robotics**

- **Data/information Centres (25%)**  
**Curation, Analysis, Dissemination**

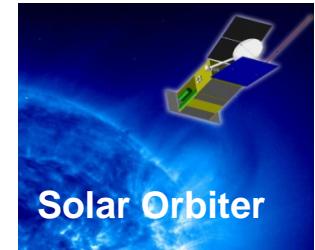

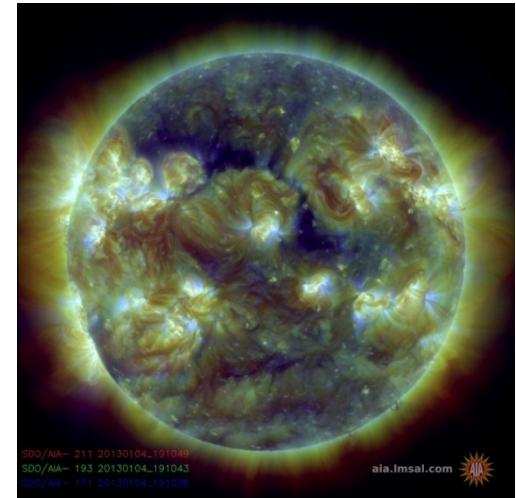

# What else do we do?

- **Economic impact**  
  
**Collaboration with Industry; 7+2 Spin-Outs**
- **Societal impact**  
  
**Outreach, Training, Apprentices, Interns**
- **Provide “National” Facilities & Expertise**  
**2 Ground stations, Thermal Vac, Vibration, Calibration, CDF, Spectroscopy, Precision components, Robotics test facility**

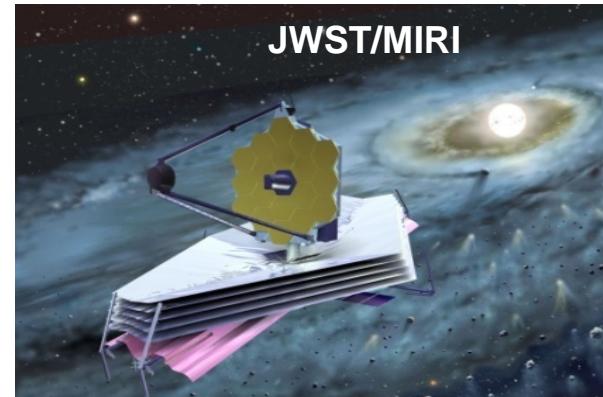

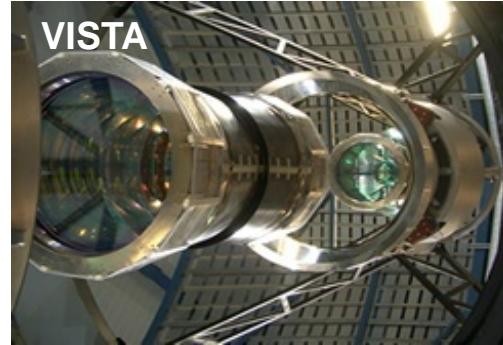

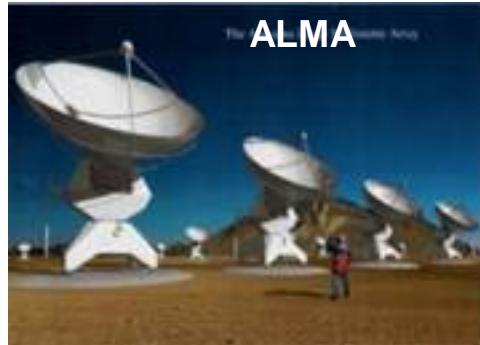

# Solar Science

- Physics & chemistry of the Sun
  - > Nuclear Fusion
  - > Space Weather
  - > Climate Change

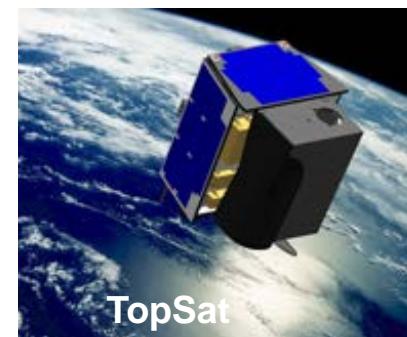

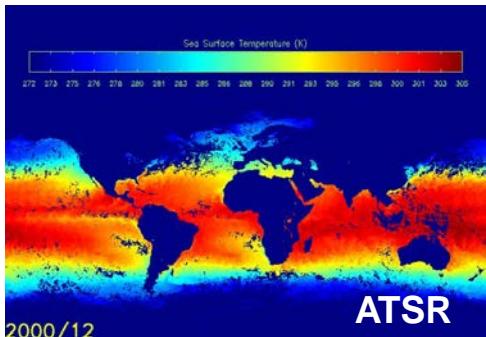

# Astronomy

- New star formations, exoplanets
- Dust clouds and decaying stars

# Earth Observation

- Build & Calibration of Instruments
- Curation of EO data / improved models
  - > Deliver better forecasts & predictions
- Next generation SST (ATSR to SLSTR)

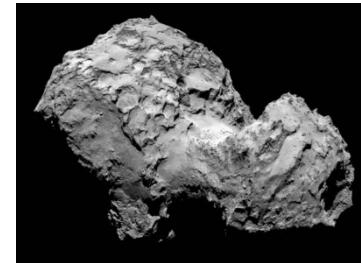

# Highlights of 2014

- Cameras installed on ISS

- Rosetta rendezvous and landing

- R100 Nat Space AIT & Cal Facility

- Newton £12M with China for Agri-Tech

# RAL Space R100: A National Facility

# Harwell Space Cluster

Rapid growth

RAL Space R100 operational  
2015

ESA ECSAT fully operational 2015

Next 200,000 sq ft for 2017

RAL Space + Industry in same  
buildings
